Hi

The problem reported in compile is for Sort()

Sort internally using

```
template <class T>
inline void Swap(T& a, T& b) { T tmp = pick(a); a = pick(b); b = pick(tmp); }
```

which generates compile error for "="

```
c:\devtools\g_upp\uppsrc\core\Defs.h(462): error C2678: binary '=': no operator found which takes
a left-hand operand of type 'const Upp::String' (or there is no accep
table conversion)
```
