Take a look at this example: [http://www.ultimatepp.org/reference\\$GuiLock\\$en-us.html](http://www.ultimatepp.org/reference$GuiLock$en-us.html)

This should fix your problem:

```
void Processus(bool *boucle, LineEdit *l)
{
    while(boucle)
    {
        GuiLock __;
        l->Insert(-1, "test\n");
    }
    boucle = false;
}
```
