Hi,

If you want to keep appending new lines to LineEdit following will work.

```
LineEdit linedit;  
for ( int i = 0; i < 10; i++ )  
{  
    s.Clear();  
    s << "String >> " << i << "\n";  
    linedit.Paste ( s.ToWString() );  
}
```
