I have changed the style how Core tutorial is created (it is now generated from the code, you can check in tutorial/CoreTutorial). The result is here:

[http://www.ultimatepp.org/srcdoc\\$Core\\$Tutorial\\$en-us.html](http://www.ultimatepp.org/srcdoc$Core$Tutorial$en-us.html)

Mostly the themes are converted and fixed from the older tutorials (Core and NTL), but there are some new additions.

This is work in progress, I appreciate

- error reports
  - suggestions for new themes
  - maybe even the themes themselves (check CoreTutorial, they are simple to create).
-
