Hello all

I wanted to use umk from a .bat to compile automatically a set of projects I maintain.
However, after successfully compiling them, from TheIDE, it recompiles all files again, as if they were not been just compiled with umk...

I have reviewed /out folder and it seems both umk/TheIDE compile the same project in the same folders.

A sample of umk command line:
umk Apps MySoft MSC15x64 -r +GUI,MT,MSC C:\Apps\MySoft.exe
