When I place there code of, I mistaken, because already correct in my home code. But atof return same result as you can see at picture.

May be will different result if use other Set Language

(I use

```
SetLanguage(LNGFromText("RU-RU"));
```

```
SetDateFormat("%3:02d.%2:02d.%1:4d");
```

It's not tested yet. But ScanDouble work fine!
