Here is a screenshot of upp10988(lastPicture->upp-wine-linux2.png) with info:
https://c.gmx.com/luoganda@gmx.com/nJmZuvaNSUyD8aGQzb04ug,

altough i use theide32 on 64bit pc - xfce4 desktop,
because i can't find appropriate wine64 for current distro,
maybe it's a 32bit 'thing',
altough there are no issues with some other 32bit apps, like Pixia
