aftershock wrote on Sun, 16 April 2017 17:29Hi,

I would like to use automatic build set up but when I click on the menu, nothing happens.

No window appears.. I found this in version 10804 and 10998.

Thanks.

a.

a) it is pretty fast. maybe it happened, check build methods
b) what compilers do you have installed (that could be detected)?
