mirek wrote on Tue, 25 April 2017 13:39It is still weird that you are getting different numbers than me.

Could you perhaps try my benchmark?

Are you benchmarking "release" mode?

What CPU / Compiler are you using? Do you have latest theide (with FAST release mode always on)?

I updated my TheIDE to the latest version, but it did not make a difference. I am using the Visual C++ compiler from Visual Studio 2015. My CPU is a Core i7 2600k. I compiled with Release mode, and the following compiler flags: -O2 /GS- /Qvec-report:2

What is FAST release mode? I also tried your RTIMING option, but it gives me the same results as my own measurement. :)
