Hi Klugier

I made sure CtrlCore was listed

the dir has

The package directory for your installation:

C:\upp-mingw-11101\upp/uppsrc/Core

C:\upp-mingw-11101\upp/uppsrc/CtrlCore

C:\upp-mingw-11101\upp/uppsrc/CtrlLib

I could not get the full dir in the screenshot

upp110200, 11040, 11066, 11080 seems to have them also.

Thanks for the help.

Neil
