Two new range kinds:

```
Vector<int> h;
for(int i = 0; i < 10; i++)
 h.Add(Random(100));

DUMP(ReverseRange(SortedRange(h)));
```

ReverseRange(SortedRange(h)) = [92, 86, 85, 80, 76, 75, 71, 60, 32, 12]
