Thanks a lot Oblivion, for your Quick reply.

I tried your code and i still don't see the color of the layout is changing. Attached the snapshot of the output.

I am running it in Windows 10, and using "MINGWx64 Debug" for compilation and i am using,

U++ version 10804 (64 Bit Gcc C++11) {details collected from the "about" option}

Should you need more details for the fix, Please let me know.

Thanks Again
Surendran.
