Subject: Re: Choosing the best way to go full UNICODE
Posted by cbpporter on Tue, 06 Jun 2017 11:58:53 GMT

As an example, here is my extractor.

It is part of the workbench projects, small poorly written fire and forget programs, so expect it to be messy. Super messy and not maintained.

This one generates two tables which are then used by the real code to power 3 Unicode plane functionality.
