BugFixes:

- @tool ...; properly working params
- properly get ui objid/clsid, like gfxget,... etc
- win7 - properly set window size when switching with F2(toggle ui) - i didn't test this on xp though
- faster gfx window redrawing(ztBug)
- ... etc ...
- 2knownBugs to go

Added:

- native windows snippets(sample template): demo added through wnative.cpp.all/wnative.gfx
- exportOnlySample: demo added in zz\_zexp folder - setPathToGcc and dblclick
- export-and-compile.bat
- customizableDesignModeButtons: now usertools can be switched through this(sample-clickOn1st2ndDmButton-blue/red)
- more esc script functions added
- ...
- For more check note.txt

Part2 is in next/prev post!
