BugFixes:
  @tool ...; properly working params
  properly get ui objid/clsid, like gfxget,... etc
  win7 - properly set window size when switching with F2(toggle ui) - i didn't test this on xp though
  faster gfx window redrawing(ztBug)
  ... etc ...
  2knownBugs to go

Added:
  native windows snippets(sample template): demo added through wnative.cpp.all/wnative.gfx
  exportOnlySample: demo added in zz_zexp folder - setPathToGcc and dblclick
export-and-compile.bat
  customizableDesignModeButtons: now usertools can be switched through
this(sample-clickOn1st2ndDmButton-blue/red)
  more esc script functions added
  ...
  For more check note.txt

Part2 is in next/prev post!
