minimum_gcc_dumpversion="5.4.0" added in svn repository. I also fixed clang version validation code.

For clang 3.4 and earlier versions, the user has to manually change -std=c++14 to -std=c++11 in several files:

- * domake
- * CLANG.bm.in
- * GCC.bm.in
- * uppsrc/Makefile.in
- * uppsrc/uMakefile.in

I don't know if we should support those old clang releases.
