PdfDraw JPEG support committed, example:

```
#include <CtrlLib/CtrlLib.h>
#include <Report/Report.h>
#include <PdfDraw/PdfDraw.h>
```

```
using namespace Upp;
```

```
GUI_APP_MAIN
```

```
{
    PdfDraw w;
```

```
    DrawJPEG(w, 100, 100, 2000, 1333, LoadDataFile("hermes.jpg"));
```

```
    String pdf = GetHomeDirFile("test.pdf");
    SaveFile(pdf, w.Finish());
```

```
    LaunchWebBrowser(pdf);
}
```

(reference/PdfDrawJPEG)

Note that it is necessary to have plugin/jpg in the project.
