Subject: Re: Current porting state? Posted by masu on Sun, 27 Aug 2006 19:22:04 GMT View Forum Message <> Reply to Message

Werner wrote on Sun, 27 August 2006 20:36Actually I expected the Linux, FreeBSD, etc. maintainers to answer. Are you doing all the stuff yourself?

Hi Werner,

as far as FreeBSD is concerned, I can assure you that Ultimate++ is working. I think it should be similar to all BSDs. But I think one has to compile Ultimate++ on its own for example on NetBSD and OpenBSD for now. Maybe I prepare a pkgsrc port in the near future, which supports quite a lot BSDs since pkgsrc is available for all these systems.

If you are curious, you can have a look at:

http://www.netbsd.org/Documentation/software/packages.html

Matthias
