luoganda wrote on Mon, 16 April 2018 16:16 This is for v11658,
adding HScrollBar(orAny) uses scroll bar as if was an item,
not a separate frame, so scrollbar size is resizing with other items.
Scrollbar is also taken a little out off place, it's with the rest of items.

Can you be more specific please? Testcase maybe so that I know what are you talking about? :)
