There is a small problem with Linux.
FileSel::GoToPlace() should look like below.

```
void FileSel::GoToPlace()
{
    if(places.IsCursor()) {
#ifdef PLATFORM_WIN32
        netnode.Clear();
#endif
        dir <= places.GetKey();
        Load();
    }
}
```
