Subject: Re: SSH package for U++
Posted by Oblivion on Sat, 16 Jun 2018 17:09:21 GMT

Hello,

SSH package and its examples are updated.
I highly recommentd updating the package, since it contains a critical fix.

2018-06-15: Critical fix: SshChannel and SFtp data read and write methods fixed: The recently introduced
          socket wait mechanism was causing a constant I/O blocking. This is now fixed.
          Cosmetics & cleanup.

2018-06-06: SshShell: Console loop fixed.

You can find the updated packages in the first message of this topic, or at the below git address:

SSH:
 https://github.com/ismail-yilmaz/upp-components/tree/master/ Core/SSH

Examples:
 https://github.com/ismail-yilmaz/upp-components/tree/master/ Examples

Best regards,
Oblivion
