Subject: Re: ChromiumBrowserExample error at compile
Posted by Zbych on Wed, 05 Sep 2018 08:22:53 GMT

Hi Luigi,

I decided to remove files list from documentation, because the list changes from time to time. The easiest solution is to copy all files (excluding *.lib and *.a) from Release (or Debug) and Resources directories.
I added also manifest file to ChromiumBrowserExample and now it is possible to run application in Debug mode.
