Hello,

It looks like a default argument is missing:

ScatterDraw.h, ln: 420

```
void ZoomToFit(bool horizontal, bool vertical = false, double factor = 0);
```

```
-----  
      ^
```

Or if this is intended, then ScatterDraw\_Demo.cpp, ln 46 should be modified:

```
scatter.ZoomToFit(true); // or false.
```

Then it works fine.

(By the way, thanks for this package, it is very good and useful!)

Best regards,  
Oblivion
