Subject: MSVC17 - How set language for error messages

Hello,

I have downloaded the upp nightly build and use it on Windows10.
There are a lot of improvements over the current stable Version and I like it.
My locale is german language and so I get german warnings and errors from the MSVC17 C++ compiler in the message window.
I would prefer english messages. Is this possible?

Edit: I found an answer by extensive googling:

Set the Environmentvariable VSLANG = 1033
restart TheIDE
