Hi Klugier,

I was filled with hope when I saw you're answer thinking i've ignored this for so long... but it doesn't work :cry: :cry: :cry: :cry: :cry: :cry:
I even tried the other way around :?

```
//$-  
#include <boost/config/warning_disable.hpp>  
#include <boost/spirit/include/qi.hpp>  
#include <boost/spirit/include/phoenix_core.hpp>  
#include <boost/spirit/include/phoenix_operator.hpp>  
#include <boost/spirit/include/phoenix_fusion.hpp>  
#include <boost/spirit/include/phoenix_std.hpp>  
#include <boost/spirit/include/phoenix_object.hpp>  
#include <boost/fusion/include/adapt_struct.hpp>  
#include <boost/spirit/include/phoenix_function.hpp>  
#include <boost/spirit/include/qi_expect.hpp>  
//$+
```
