forlano wrote on Wed, 05 December 2018 09:42Hello,

I get the errors

/home/luigi/upp/uppsrc/Core/ValueUtil.h (87): error: expected unqualified-id before '=' token
/home/luigi/upp/uppsrc/Core/ValueUtil.h (88): error: expected unqualified-id before '=' token

on lubuntu 18.10 and nightly build 12599. Theide was compiled with version 11393, but I think this should not be a problem.
Is this a known problem or it is my machine the need a review?

Thanks,
Luigi

I have tried lubuntu 18.10 with latest nightly and it seems to work fine.
