mirek wrote on Mon, 14 January 2019 21:56OK, now I see possible bug, hard to say it is related, but please test:

```
void BufferPainter::FinishPathJob()
if(jobcount == 0)
 return;
 CoWork co;
 co * [&] {
 for(;;) {
  int i = co.Next():
  if(i >= jobcount)
  break;
  CoJob& b = cojob[i];
  b.rasterizer.Reset();
  PathJob j(b.rasterizer, b.width, b.path info, b.attr, b.preclip, b.regular);
  if(!j.preclipped) {
   b.evenodd = j.evenodd;
   BufferPainter::RenderPathSegments(j.g, b.path_info->path[b.subpath], j.regular ? &b.attr :
NULL, j.tolerance);
FinishFillJob();
(The difference is that CoWork is now inside block).
Good morning,
This does not help. The problem is still there.
BR, Tom
