...

Well, I have meanwhile found that you can actually activate correct windows captions in settings, so the game is back on... :)

The key now is the fact that we can detect that system colors do not correspond to dark mode settings and adjust everything accordingly.

Hi,

Can you point out where the correct windows captions are set?

BR, Tom

Uhm same place you suggest... "Personalize > Colors > Show accent color on the following surfaces > [V] Title bars and window borders"
