Hello

There is small bug in CtrlGrid. I will use touch screen in Linux, and after touch on CtrlGrid program received signal SIGSEGV

backtrace:

maybe this code will be solution?

is:
```
void GridCtrl::MouseMove(Point p, dword keyflags)
{
	mouse_move = true;

	if(resizing)
```

wil be: ?

```
void GridCtrl::MouseMove(Point p, dword keyflags)
{
	mouse_move = true;

	if(resizing && hitems.GetCount() < splitCol)
```

zdrów!
