
Subject: Empty DocEdit pre-selecting keypresses (nightly)
Posted by [jjacksonRIAB](#) on Sun, 31 Mar 2019 21:11:37 GMT
[View Forum Message](#) <> [Reply to Message](#)

Platform: Win7

This has been happening in the nightly releases for several weeks and doesn't occur in stable. If you click on an empty DocEdit without making the mouse perfectly still, the next character typed in the DocEdit will be selected.
