mirek wrote on Sat, 30 March 2019 10:15Well, there one issue that you need to be aware of. Unfortunately MacOS is caching these things and does not provide a simple way how to clear the cache (I have spent a lot of time to find that before giving up). So it is possible that it has now cached old status (no icon).

Perhaps test by renaming the app or restart the Mac.

Mirek

Renaming the app, i.e. the package, for me was the only solution. The others failed.
Thanks,
Luigi
