Subject: Re: Install libgtkglext1-dev in instructions
Posted by Klugier on Sun, 07 Apr 2019 18:08:10 GMT

Hello Koldo,

I added separate section to our POSIX installation guild:

4. Additional dependencies
4.1 OpenGL
To develop application that needs to use 3D graphics you should download following packages for your distribution:
libgtkglext1-dev # Debian like distribution

It should be available tomorrow.

Sincerely,
Klugier
