Dear Matthias

My problem was exactly the same one, when erasing the file
"uppsrc/tctrllib/appdoc.tpp/dlgcalc$cs-cz.tpp" everything has worked well.

You have saved me a pair of working hours, I already I was debugging the SyncRefs() function in
TopicBase.cpp

Thank you very much.

The next problem with theIde I will put them in "U++ TheIDE: Other Features Wishlist and/or
Bugs"

Nico
