mirek wrote on Thu, 18 April 2019 02:03Novo wrote on Thu, 18 April 2019 00:22I'm getting a random crash with TheIDE (every second time I launch it) with the call stack below. (Full rebuild)
It is most likely related to uninitialized memory reads or corrupted memory.

Based on stack dump, hopefully fixed in trunk. Please test.

Mirek

Thank you! So far everything seems to work fine.
