Hi all-

It is kind of related to sql, so I will let you know how it is going with libpqxx.
Please check out my issue opened up on GitHub re: stable branch of libpqxx if you are interested.
I am using ultimate++ to test out libpqxx with postgres 11.3 and the stable branch of libpqxx on mingw.
Here is the link:

I am not sure I am correct because undefined symbols are not familiar to me.
Hope everyone is having a cool day.
thnx roboloki
