Thanks a lot!

One of my data-intensive MT apps is running ~20% faster now.
It looks like it is using 4 to 6 times more RAM.
And I'm getting a timing report, which, probably, should be disabled:
TIMING Large Alloc 2 : 808.40 ms - 1.27 us (825.00 ms / 636928), min: 0.00 ns, max: 17.00 ms, nesting: 0 - 636928
TIMING Large Alloc   : 1.97 s - 167.81 ns (2.27 s / 11734322), min: 0.00 ns, max: 28.00 ms, nesting: 0 - 11734325
