It works for me.

Maybe the problem is that this is alignment of header tab and you expect it to align the content - it does not work that way...

You need to provide SetDisplay for the column (or for the individual cell) to align the content right.

E.g. StdRightDisplay.

```
GUI_APP_MAIN
```

```
{  
    ArrayCtrl ac;  
    ac.AddColumn("Aligned right").SetDisplay(StdRightDisplay());  
    ac.Add(123);
```

```
    TopWindow win;  
    win.Add(ac.SizePos());  
    win.Run();  
}
```
