When compiling with NOAPPSQL, an ifdef is missing from Session.cpp.

Patch [against 2019.1]:

```

 void Sql::operator=(SqlSession& s)
 {
  Mutex::Lock __(sDefs);
  if(this == &AppCursor()) {
  #ifdef _MULTITHREADED
@@ -210,6 +212,8 @@ Sql& AppCursorR()
   empty = &h;
  }
  return *empty;
 }

+#endif
+
 }
```

This is bad in current master / trunk also.
