Subject: Re: [REQUEST] Adding "Copy" and "Move"  option to TheIDE's package selection menu
Posted by Oblivion on Mon, 30 Sep 2019 22:13:44 GMT

Hello Deepak,

Thank you for the information!

I sometimes forget that a U++ assembly can be a set of directory paths.

What I really meant is moving or copying a package to another directory, using TheIDE's package menu.

There is already a "duplicate package" entry in the package menu but that entry only creates a duplicate of the package in the same directory.

Best regards,
Olibvion
