Hello,

I am fighting with a DropTime and DropDate ctrl. I tried several things without success.
On a MySQL database the date has the format

YYYY-MM-DD

but when sent on those ctrls, for example with

```
dd <=<= (Date) sql[date];  
dt <=<= AsString(sql[datetime]);
```

it is displayed has

MM/DD/YYYY

How to let appear the original format? I am mistaking the way to pass the data to the ctrls?

Thanks,
Luigi
