Subject: Re: Added my own .h file, struggling to use the String type Posted by xrysf03 on Mon, 21 Oct 2019 21:50:40 GMT View Forum Message <> Reply to Message

@koldo: thanks for your warm, reassuring response :) I'm a noob, I need to find my way around and about. Overall U++ feels stable and to the point, I like it. I cannot say I have enough time to play with it, but as this is a hobby project, there are no deadlines to rush me and haunt me.
