mirek wrote on Wed, 02 October 2019 16:42 That said, does that happen with .h or with .cpp file?
(If it is just .h, that would be important clue).

Mirek

Just happen to me in a .cpp file.

I just swaped from .h to .cpp after a compilation error and just did 2 copy paste and compile again then TheIDE bring me back to my first copy paste.
