Subject: Re: CParser GetColumn bugfix
Posted by cbpporter on Wed, 30 Oct 2019 09:12:31 GMT

Here is my exact code from Spaces0 :o :

```
if(*term++ == '\n') {
    line++;
    //lineptr = term;
    }
```

This is the fix I retired for my new one, that worked better. But I didn't update GetChar and Skip Term.

But I'll test out you new fix.

Luckily, I have 170 test cases ready to run, some of them testing column too.
