Hi there,

I was compiling a big project of mine with 2019.2, MSVS 2019 64 bit, and I got the following error:

error C2280: 'Upp::Vector<Upp::Pointf>::Vector(const Upp::Vector<Upp::Pointf> &)': attempting to reference a deleted function operator.

The above error happens in Core/Vcont.h at line 132; if I look into the error, I see that it's generated by the following code:

OeeChart.cpp

See reference to the instance 'T &Upp::Vector<T>::Add(const T &)'

with

[

    T=Upp::Vector<Upp::Pointf>

]

```
for(unsigned int i = 0; i < colonne.size(); i++)
{
    Vector<Pointf> v_temp;
    v_temp.clear();
    for(unsigned int j = 0; j<colonne[i].coordinates.size(); j++)
        v_temp.push_back(colonne[i].coordinates[j]);
    b_on_screen.Add(v_temp); <-- This is generating the error
}
```

and by:

OeeChart.h

Vector< Vector<Pointf> > b\_on\_screen;

See reference to the instance 'Upp::Vector<Upp::Vector<Upp::Pointf>>'

Regards,  
gio
