Proposed patch:

```
case INT_V:
    p = Format("%d", int(r));
    break;
+ case INT64_V:
+   p = IntStr64(r);
+   break;
case DOUBLE_V:
    p = FormatDouble(double(r), 20);
    break;
case DATE_V: {
    Date d = r;
```
