koldo wrote on Sun, 16 February 2020 21:14Hello Klugier

I think what you're saying might cause some misunderstanding: AFAIK
https://github.com/ultimatepp is not the official U++ repository, but the official U++ mirror in GitHub
:).

How do you define mirror in distributed versioning system?

Quote:
Otherwise a few more things would have to be modified.

There would be no practical difference.
