Missing code:
Vector& operator<<(T&& x) { Add(pick(x)); return *this; }
This would allow to compile code below.

```
Vector<int> vi1,vi2;
Vector<Vector<int>> vvi;
vi1<<1<<2;
vi2<<3<<4;
vvi << clone(vi1) << clone(vi2);
vvi << pick(vi1) << pick(vi2);
```
