
Subject: ScrollBar in editor won't go up

Hello,

A little annoyance in theide is that if I try to operate the scrollbar on a text editor it will only scroll down, I'd have to use keys to go up or click the little arrow up button. The scrollwheel also works normally. But clicking or dragging won't make it go up, only down. The issue is only with the scrollbar pictured.

Ruben

Version 13664 on Kubuntu 18.04 GCC
