Subject: Re: quick parameter question
Posted by mtdew3q on Mon, 30 Mar 2020 00:19:28 GMT

Hi Novo-

It was so easy after all. Thanks for the encouragement. Here it is...

```
sql.SetStatement("Select ACCTNUM from ACCOUNTS WHERE ACCTNAME = ?");
  sql.SetParam(0,"ABC");
  sql.Execute();
  while(sql.Fetch()){  }
```

etc...

I'm going to be working on U++ during covid.

Have a cool rest of your weekend,
thanks - roboloki
