I guess you probably missed the last discussion about .config, .cache and sandboxing.

Yep, and I can't find it...

 rebuild theide.

Mirek

Did a rebuild, but still no log file.
I've the theide.app inside Application folder. Where should the log file go ? Maybe it's e
permisison problem here.

Default (in this case) should be

~/.config/u++/{appname}/{appname}.log
